

INDUSTRIAL

Blacksmith

A blacksmith forges and repairs metal parts used in farm machinery and industrial and domestic equipment; makes striking and cutting tools; makes sharpening or hardening drills, chisels and other tools; makes custom work, including ornamental railings, gates, grilles, furniture and horse shoes; uses forge welding and conducts hot riveting.

Are you physically fit? Do you have good manual dexterity? Do you pay close attention to detail? Do you have an eye for concepts and designs? Are you creative? Do you enjoy using machinery? Are you willing to have a work environment that may be dusty?
