

CONSTRUCTION

Residential (Low Rise) Sheet Metal Installer

A residential (low rise) sheet metal installer installs residential air-handling and ventilation systems in low-rise (four storeys or fewer) residential buildings that do not have common conditioned areas. The work is done in self/contained, single family dwellings such as detached, semi-detached and town and linked homes that have a wood frame construction.

Do you have good manual dexterity, an eye for dimension and detail, and enjoy working with your hands/power tools? Do you have good analytical and problem-solving skills? Can you lift 50 lbs comfortably? Are you able to travel for work? Are you good at visualizing, reading drawings, or creating a freehand sketch?

MOST IMPORTANT ESSENTIAL SKILLS

- attention to detail
- communication skills
- problem solving
- teamwork

POTENTIAL EARNINGS

Hourly wage
